EDUCATION

Polytechnic University of the Philippines – Quezon City **2022 - 2026**
Bachelor of Science in Information Technology

EXPERIENCE

Software Engineer Intern **2026**
Stratpoint Technologies *Mandaluyong, Philippines*

Frontend Developer **2025 - 2026**
Software Research Group – PUPQC *Quezon City, Philippines*

Vice President Research and Development **2024 - 2025**
Commonwealth Information Technology - PUPQC *Quezon City, Philippines*

CommITs Creatives **2022 - 2024**
Commonwealth Information Technology - PUPQC *Quezon City, Philippines*

PROJECTS

Projectnify **2026**
Next.js 15 | *Neon* | *Drizzle ORM* | *Postgres* | *Cleark Authentication* *Fullstack Developer* | *UI/UX Designer*

- Built responsive project management interfaces with multi-view task layouts, transitioning complex workflows into intuitive user experiences.
- Developed custom Gantt chart scheduling and analytics dashboards to display real-time project progress, dependencies, and performance metrics.
- Implemented real-time collaboration tools, including interactive whiteboard features, to bridge team planning and execution.

AAA.blog_post **2026**
Next.js | *Neon* | *Drizzle ORM* | *Postgres* *Fullstack Developer* | *UI/UX Designer*

- Developed complete blog management capabilities, enabling creators to build, edit, and publish content through a responsive UI.
- Built real-time comment moderation features for fast approval, flagging, and management of user discussions.
- Integrated fast keyword search and category filtering to provide clear content organization and instant article retrieval.

PUP Track Smart **2026**
React | *Django* *Frontend Developer* | *UI/UX Designer*

- Built the core interface with React.js, translating Figma prototypes into a solid, organized, and fully responsive design for all devices.
- Engineered intuitive layouts and component pages to ensure clear navigation and high-clarity data that is easy to understand.
- Collaborated to bridge design and code, ensuring every feature was functional, efficient, and matched the original plan perfectly.

Yo Etz – AI Assisted Interview **2026**
Next typescript | *Django* | *Postgres* | *Meta-Llama-3-8B-Instruct LLM* *Frontend Developer* | *UI/UX Designer*

- Built the core interface with React.js, translating Figma prototypes into a solid, organized, and fully responsive design for all devices.
- Engineered intuitive layouts and component pages to ensure clear navigation and high-clarity data that is easy to understand.
- Collaborated to bridge design and code, ensuring every feature was functional, efficient, and matched the original plan perfectly.

AI-Powered Ecommerce Platform (GFMIC) **2026**

Python | Django *Frontend Developer | UI/UX Designer*

- Established the core user interface, building a solid, organized foundation that is fully responsive across all devices.
- Developed essential features, including data exporting, favorites, and add-to-cart functionality to enhance system utility.
- Implemented comprehensive field validations, ensuring accurate data entry and a secure, error-free user experience.

CERTIFICATES

- mabl Skills Certification: Foundations
- Certified Associate in Application Defense (PUP-CAAD)
- Saylor Academy CS406: Information Security

SKILLS & INTEREST

Technical Skills

Design & Prototyping: Figma, Canva, Lucidchart, Draw.io
Web & App Development: React, Next.js, Tailwind CSS, Bootstrap, FlutterFlow, Neon, Drizzle ORM, Clerk Authentication (with the help of AI)
DevOps & Environment: Docker, Git, GitHub, GitHub Desktop
Project Management & Collaboration: Jira, Notion, ClickUp
Productivity Suites: Microsoft Office (Word, Excel, OneNote), Google Workspace (Docs, Sheets, slides)
Communication & Platforms: Microsoft Teams, Zoom, Google Meet, Discord
Testing & Quality Assurance: Playwright, mabl

Personal Skills: Detail-Oriented, Organized, Collaborative, Adaptable, Flexible, Time Management

Interests: Music, Sports, Gaming, Film Production
